## EXPERIENCE

### Web Designer and Programmer

Real Agent Works | Florida | 2020- 2021

- Designed sites for realtors all around the country. In charge of finding and editing all photos for the sites.
- Coded various projects in JavaScript and PHP using different APIs.
- Worked remotely and communicated with the team and management through Slack.

### Web Programmer

University Marketing and Communications at Michigan Technological University | Houghton, MI | 2017 - 2020

- Worked in a professional environment with graphic designers, writers, videographers, and web developers.
- Help them move from an old Java-based CMS to an XSLT/PHP based CMS called OU Campus. Developed a PHP script to export content to make the process easier.
- Built new and expand upon features for their CMS. Rebuilt their image cropping gadget and built utility gadgets for management.
- Worked to implement AA web accessibility standers compliance in each project and site.
- Constructed web pages and web apps that interacted with MySQL databases and or Google Sheets.
- Worked with groups and university departments to add features or improve their sites.

### Media Specialist

University Marketing and Communications at Michigan Technological University | Houghton, MI | June 2017 - November 2018

- Worked with a videographer to make marketing material for Michigan Tech.
- Recorded and edited videos in the Adobe Suite.
- Used Adobe After effects and Illustrator to make basic animations and effects.
- Worked with a team of people to make a consistent image and message.
- Assisted in video archiving and storage management.

## FREELANCE EXPERIENCE

### Freelance Web/Media Work

Divine Star LLC | Hastings, MI | 2019 - Present

- Created my own LLC and started accepting web projects from clients.
- Developing a video game and a desktop application in TypeScript
- Edited videos and audio for a Michigan Tech research project.
- Helped people work on their desired goals and life purpose as a life coach. ‘
